- Women in Business

TOP 10 TIPS FOR SUCCESS

10. Know the requirements for your program of study - The 2025-2026 Undergraduate Catalog, your Degree Audit and your Academic Advisor are your friends!
9. Get to know your professors, administrators and staff in your college.
8. Get to know each other – this is going to be the base of your professional network going forward.
7. General Education courses help us to think, communicate and interact effectively with the world around us! You can take general education electives, directed electives and free electives in addition to the required courses for your major.
6. Be present and engaged - Students are encouraged to get involved in university life including participating in clubs, professional organizations, and the many co-curricular options available to them.

TOP 10 TIPS FOR SUCCESS (CONT.)

5. Customize your program of study. Students are encouraged to customize their programs of study through minors and professional certifications.
4. Seek out opportunities to gain professional experience. We encourage all students to acquire as much professional experience as possible during their course of study.
3. Seek out co-curricular and enrichment opportunities as they present themselves. Whether that involves study abroad, attending a workshop or joining a professional organization. The classroom is only part of your academic education.
2. The key to succeeding in college is organization, especially time management.
1. **Transitioning to university life can be stressful, but it will get easier over time!**
