Section B: ENROLLMENT AND PERSISTENCE

B1. Institutional Enrollment - Men and Women

Provide numbers of students for each of the following categories as of the institution’s official fall reporting date or as of **October 15, 2023**.

- Note: Report students formerly designated as “first professional” in the graduate cells.
- For information on reporting study abroad students please see this [IPEDS reporting tip](#).
- In cases where non-binary gender information is provided, IPEDS recommends distributing across the two-binary categories.
- Dual Enrollment: If your institution enrolls high school students in college courses for credit either within a dual enrollment program or outside of a dual enrollment program, you may report the unduplicated count as part of the full- or part-time “All other undergraduates” section.

B2. Enrollment by Racial/Ethnic Category.

Provide numbers of undergraduate students for each of the following categories as of the institution's official fall reporting date or as of **October 15, 2023**.

- ✓ Include international students only in the category "Nonresidents."
- ✓ Complete the "Total Undergraduates" column only if you cannot provide data for the first two columns.
- ✓ Report as your institution reports to IPEDS: persons who are Hispanic should be reported only on the Hispanic line, not under any race, and persons who are non-Hispanic multi-racial should be reported only under "Two or more races."
- ✓ New guidance from IPEDS for reporting aggregate data:
 - Racial/ethnic designations are requested only for United States citizens, residents, and other eligible non-citizens.
 - Eligible non-citizens include all students who completed high school or a GED equivalency within the United States (including DACA and undocumented students) and who were not on an F-1 non-immigrant student visa at the time of high school graduation.
 - More information about other eligible (for financial aid purposes) non-citizens is available at the [Federal Student Aid website](#).
 - "Nonresident - A person who is not a citizen or national of the United States and who is in this country on a student visa or temporary" "basis and does not have the right to remain indefinitely. Do not include DACA, undocumented, or other eligible noncitizens in this category."
 - NOTE - Nonresidents are to be reported separately, in the boxes provided, rather than included in any of the seven racial/ethnic categories or in race/ethnicity unknown.
 - Dual Enrollment: If your institution enrolls high school students in college courses for credit either within a dual enrollment program or outside of a dual enrollment program, you may report the unduplicated count as part of the non-degree-seeking students included in the "Total Undergraduates (both degree & non-degree-seeking)" section.

B4-B21: Graduation Rates

The items in this section correspond to data elements collected by the IPEDS Web-based Data Collection System's Graduation Rate Survey (GRS).

- ✓ For complete instructions and definitions of data elements, see the [IPEDS GRS Forms and Instructions for the 2023-2024 Survey](#).

In the following section for bachelor's or equivalent programs, please disaggregate the Fall 2016 and Fall 2017 cohorts (formerly CDS B4-B11) into four groups:

- Students who received a Federal Pell Grant*
 - Recipients of a subsidized Stafford Loan who did not receive a Pell Grant
 - Students who did not receive either a Pell Grant or a subsidized Stafford Loan
 - Total (all students, regardless of Pell Grant or subsidized loan status)
- * Students who received both a Federal Pell Grant and a subsidized Stafford Loan should be reported in the "Recipients of a Federal Pell Grant" column.

For each graduation rate grid below, the numbers in the first three columns for Questions A-G should sum to the cohort total in the fourth column (formerly CDS B4-B11).

For Bachelor's or Equivalent Programs

Please provide data for the **Fall 2017** cohort if available. If **Fall 2017** cohort data are not available, provide data for the **Fall 2016** cohort.

B22. Retention Rates

Report for the cohort of all full-time, first-time bachelor's (or equivalent) degree-seeking undergraduate students who entered in Fall 2022 (or the preceding summer term).

- ✓ The initial cohort may be adjusted for students who departed for the following reasons:
 - * Death
 - * Permanent Disability
 - * Service in the armed forces
 - * Foreign aid service of the federal government
 - * Official church missions
 - * No other adjustments to the initial cohort should be made.

For the cohort of all full-time bachelor's (or equivalent) degree-seeking undergraduate students who entered your institution in Fall 2022 (or the preceding summer term), what percentage was enrolled at your institution as of the date your institution calculates official enrollment for **Fall 2023.**

- ✓ 84%

Total students retained = students from the Fall 2022 cohort who are still enrolled as of Fall 2023 + students from Fall 2022 cohort who completed their bachelor's program as of Fall 2023.

$$\frac{(\text{Students from the Fall 2022 cohort still enrolled as of Fall 2023} + \text{Students from Fall 2022 cohort who completed their bachelor's program as of Fall 2023})}{(\text{Adjusted Fall 2022 cohort})} * 100$$

Note: The number of first-time students seeking a bachelor's degree (or equivalent) who attain a bachelor's degree (or equivalent) by their second fall term is expected to be zero or very small. In exceptional cases when a first-time student does satisfy all degree requirements including full credit completion (e.g., typically 120 credit hours) and is awarded a bachelor's degree (or equivalent) by their second fall term, they are to be considered "retained" for EF reporting purposes.

Section C: FIRST-TIME, FIRST-YEAR ADMISSION

C1-C2: Applications

C1. First-time, first-year students: Provide the number of degree-seeking, first-time, first-year students who applied, were admitted, and enrolled (full- or part-time) in **Fall 2023**.

- ✓ Include early decision, early action, and students who began studies during summer in this cohort.
- ✓ Applicants should include only those students who fulfilled the requirements for consideration for admission (i.e., who completed actionable applications) and who have been notified of one of the following actions: admission, non-admission, placement on waiting list, or application withdrawn (by applicant or institution).
- ✓ Admitted applicants should include wait-listed students who were subsequently offered admission.
- ✓ Since the total may include students who did not provide gender data, the detail need not sum to the total.
- ✓ If your institution collects and reports non-binary gender data, please use the “Another Gender” category.
- ✓ Note that recent high school graduates and other students without prior postsecondary experience will still be considered “first-time students” for fall enrollment reporting purposes even if they enrolled in the summer prior to fall enrollment.
- ✓ Provide numbers of students for each of the following categories as of the institution’s official fall reporting date or as of October 15, 2023.

C6-C7: Basis for Selection

C6. Do you have an open admission policy, under which virtually all secondary school graduates or students with GED equivalency diplomas are admitted without regard to academic record, test scores, or other qualifications?

If so, check which applies:

- Open admission policy as described above for all students
- Open admission policy as described above for most students, but
 - Selective admission for out-of-state students
 - Selective admission to some programs
 - Other (explain):

C7. Relative importance of each of the following academic and nonacademic factors in your first-time, first-year, degree-seeking general (not including programs with specific criteria) admission decisions.

C9-C12: First-time, first-year Profile

Provide information for **ALL enrolled, degree-seeking, full-time and part-time, first-time, first-year students** enrolled in **Fall 2023**, including students who began studies during summer, international students/nonresidents, and students admitted under special arrangements.

C9. Percent and number of first-time, first-year students enrolled in Fall 2023 who submitted national standardized (SAT/ACT) test scores.

- ✓ Include information for **ALL enrolled, degree-seeking, first-time, first-year students who submitted test scores.**
- ✓ Do not include partial test scores (e.g., mathematics scores but not critical reading for a category of students) or combine other standardized test results (such as TOEFL) in this item.
- ✓ Do not convert SAT scores to ACT scores and vice versa.
- ✓ If a student submitted multiple sets of scores for a single test, report this information according to how you use the data. For example:
 - If you consider the highest scores from either submission, use the highest combination of scores (e.g., verbal from one submission, math from the other).
 - If you average the scores, use the average to report the scores.

- ⇒ Credit may be granted for equivalent courses completed in accredited institutions of higher education. Credit for work completed at an unaccredited institution may be granted on the recommendation of the student's major department in consultation with the school or college dean and transfer credit analyst.
- ⇒ Grades of D or above are accepted for transfer.
- ⇒ Grades in a course submitted for transfer as a major program requirement must be the same or higher than the minimum grade required by the department. For example, if a program requires a student earn a B or better in a major program requirement, then the student requesting transfer credit from another institution must have earned a minimum of B in the parallel course. If a student earns a lower grade than the requirement, the department may require the course to be repeated at West Chester University.
- ⇒ If a student changes their major, grades originally approved for transfer will be re-evaluated by the new major department.
- ⇒ No course equivalency transfer credit will be given for WCU courses numbered at the 400 level, unless the courses are taken at an institution that grants a baccalaureate degree. Departments have the right to accept courses for their majors as XXX 199 or TRN 199 credits.
- ⇒ Transcripts will be evaluated by the Office of the Registrar when applying to the institution. Students will be sent a copy of their Transfer Credit Evaluation within two weeks of providing transcripts for review.
- ⇒ West Chester University's Academic Passport Policy is designed to facilitate the transition of students and their credits with an earned Associate of Arts (A.A.), Associate of Fine Arts (A.F.A.), Associate of Science (A.S.), or Associate of Applied Science (A.A.S) degree from other institutions with Council for Higher Education Accreditation (CHEA) recognized accreditation. Degrees earned include: Associate of Art (A.A.), Associate of Fine Arts (A.F.A.), Associate of Science (A.S.), Associate in Applied Science (A.A.S). Under Academic Passport students will have automatically satisfied WCU's General Education requirements with the exception of a 3-credit Diverse Communities requirement. This exception does not extend the student's time to degree at WCU. In addition, the Academic Passport will also waive the Additional Baccalaureate Degree Requirement of Speaking Emphasis. Students will need to satisfy the Capstone requirement, the remaining credits of Writing Emphasis, and depending on the major, the Language & Culture requirements at WCU. Academic passport is available to students at any point during their WCU career and is applied when they offer a final transcript indicating their associate degree. This makes it possible for students to engage in reverse transfer to apply some WCU-earned credits to their community college to earn their associate degree while enrolled at WCU.

Section H: FINANCIAL AID

Please refer to the following financial aid definitions when completing Section H.

Awarded aid: The dollar amounts offered to financial aid applicants.

Financial aid applicant: Any applicant who submits **any one of** the institutionally required financial aid applications/forms, such as the FAFSA.

Indebtedness: Aggregate dollar amount borrowed through any loan program (federal, state, subsidized, unsubsidized, private, etc.; excluding parent loans) while the student was enrolled at an institution. Student loans co-signed by a parent are assumed to be the responsibility of the student and **should** be included.

Institutional scholarships and grants: Endowed scholarships, annual gifts and tuition funded grants for which the institution determines the recipient.

Financial need: As determined by your institution using the federal methodology and/or your institution's own standards.

Need-based aid: College-funded or college-administered award from institutional, state, federal, or other sources for which a student must have financial need to qualify. This includes both institutional and non-institutional student aid (grants, jobs, and loans).

Need-based scholarship or grant aid: Scholarships and grants from institutional, state, federal, or other sources for which a student must have financial need to qualify.

Need-based self-help aid: Loans and jobs from institutional, state, federal, or other sources for which a student must demonstrate financial need to qualify.

Non-need-based scholarship or grant aid: Scholarships and grants, gifts, or merit-based aid from institutional, state, federal, or other sources (including unrestricted funds or gifts and endowment income) awarded solely on the basis of academic achievement, merit, or any other non-need-based reason. When reporting questions H1 and H2, non-need-based aid that is used to meet need should be counted as need-based aid.

Note: Suggested order of precedence for counting non-need money as need-based:

1. Non-need institutional grants
2. Non-need tuition waivers
3. Non-need athletic awards
4. Non-need federal grants
5. Non-need state grants
6. Non-need outside grants
7. Non-need student loans
8. Non-need parent loans
9. Non-need work

Non-need-based self-help aid: Loans and jobs from institutional, state, or other sources for which a student need not demonstrate financial need to qualify.

Private student loans: A nonfederal loan made by a lender such as a bank, credit union or private lender used to pay for up to the annual cost of education, less any financial aid received.

External scholarships and grants: Scholarships and grants received from outside (private) sources that students bring with them (e.g., Kiwanis, National Merit scholarships). The institution may process paperwork to receive the dollars, but it has no role in determining the recipient or the dollar amount awarded.

Work study and employment: Federal and state work study aid, and any employment packaged by your institution in financial aid awards.

H1-H5: Aid Awarded to Enrolled Undergraduates

H1. Enter total dollar amounts **awarded** to enrolled full-time and less than full-time degree-seeking undergraduates (**using the same cohort reported in CDS Question B1, “total degree-seeking” undergraduates**) in the following categories.

- ✓ Include aid awarded to international students (i.e., those not qualifying for federal aid).
- ✓ Aid that is non-need-based but that was used to meet need should be reported in the need-based aid column.
- ✓ For a suggested order of precedence in assigning categories of aid to cover need, see the entry for “non-need-based scholarship or grant aid” on the last page of the definitions section.

Section I: INSTRUCTIONAL FACULTY AND CLASS SIZE

I1. Please report the number of instructional faculty members in each category for Fall 2023. Include faculty who are on your institution's payroll on the census date your institution uses for IPEDS/AAUP.

The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

Table 46 Guidelines for Including/Excluding Instructional Faculty for Reporting

Letter	Description	Full-time	Part-time
A	Instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses
B	Administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include if they teach one or more non-clinical credit courses
C	Other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude	Include
D	Undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
E	Faculty on sabbatical or leave with pay	Include	Exclude
F	Faculty on leave without pay	Exclude	Exclude
G	Replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: faculty employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instruction faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as Black, non-Hispanic; American Indian or Alaska Native; Asian, Native Hawaiian or other Pacific Islander, or Hispanic.

Doctorate: includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. Also includes terminal degrees formerly designated as “first professional,” including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), or law (JD).

Terminal master’s degree: a master’s degree that is considered the highest degree in a field: example, M. Arch (in architecture) and MFA (master of fine arts in art or theater).

12. Student to Faculty Ratio

Report the Fall 2023 ratio of full-time equivalent undergraduate and graduate students (full-time plus 1/3 part time) to full-time equivalent instructional faculty of undergraduate and graduate students (full-time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students.

- Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2023 Student to Faculty ratio: 20 to 1

- Based on 13,326 students and 676 faculty.

13. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2023 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section **should** be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of *class sections* and *class subsections* offered in Fall 2023. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the “100+” column in the class section column and 40 times under the “20-29” column of the class subsections table.

Section J: Disciplinary areas of DEGREES CONFERRED

Degrees conferred between July 1, 2022 and June 30, 2023

For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
