General Information

About West Chester University of Pennsylvania

West Chester University offers bachelor's and master's degrees in the arts and sciences, teacher training and certification, advanced study preparation in fields such as medicine and law, education for specific professions, and continuing education.

Total enrollment at West Chester University includes 14,657 undergraduate students and 2,743 graduate students. This represents the IPEDS unduplicated headcount. While most undergraduates are recent high school graduates preparing for career objectives, many others are older individuals, including veterans and homemakers, who either never before had the opportunity for a college education or whose schooling was interrupted.

Most students are residents of Pennsylvania but students from other states and foreign countries are welcome. The student body at West Chester University represents a cross section of many ethnic, racial, and religious groups and includes students from all socioeconomic levels.

Like the world around it, West Chester University is constantly transforming. The school continues to broaden and modify the nature and number of its programs to reflect the needs of its students in their endeavor to prepare themselves for success and fulfillment in life.

The History of West Chester University of Pennsylvania

Founded in 1871, West Chester University began as West Chester Academy, a private, state-aided school that existed from 1812 to 1869. The Academy enjoyed strong support from the highly intellectual Chester County Cabinet of the Natural Sciences of the pre-Civil War decades. It was recognized as one of Pennsylvania's leading preparatory schools, and its experience in teacher training laid the groundwork for the normal school years that were to follow.

As the state began to take increasing responsibility for public education, the Academy was transformed into West Chester Normal School, still privately owned but state certified. The Normal School admitted its first class, consisting of 160 students, on September 25, 1871. In 1913, West Chester became the first of the normal schools to be owned outright by the Commonwealth.

West Chester became West Chester State Teachers College in 1927 when Pennsylvania initiated a four-year program of teacher education. In 1960, as the Commonwealth paved the way for liberal arts programs in its college system, West Chester was renamed West Chester State College, and two years later introduced the liberal arts program that turned the one-time academy into a comprehensive college.

In recognition of the historic merit of the campus, in 1981 the West Chester State College Quadrangle Historic District was placed on the National Register of Historic Places. The buildings included in this historic district are Philips Memorial Building, Ruby Jones Hall, Recitation Hall, and the Old Library. Except for Philips, these buildings are all constructed of native Chester County serpentine stone.

West Chester State achieved another major milestone with passage of the State System of Higher Education bill. West Chester became one of the 14 universities in the State System of Higher Education on July 1, 1983. Along with its new name -- West Chester University of Pennsylvania of the State System of Higher Education -- the institution acquired a new system of governance and the opportunity to expand its degree programs.

Admissions

Undergraduate Admissions Standards

West Chester University prides itself on the holistic approach used in evaluating applicant credentials. Each application is reviewed individually, and we carefully consider scholastic performance and academic preparation to determine an individual's potential for success.

For general admission, as a first-year student, the Office of Admissions requires successful completion of a college preparatory curriculum in high school. Honors and AP level courses are preferred. Submitting SAT or ACT scores was optional for students applying to WCU in Fall 2025. The mean high school grade point average of first-year students who enrolled at West Chester University in Fall 2025 was 3.40.

Applicants who do not meet regular admissions standards may be considered for a special admissions program if appropriate or denied admission and counselled to enroll at another college or university for a minimum of 24 credits before reapplying as a transfer student.

Individuals who have been enrolled in any postsecondary institution after graduation from high school and/or have attended West Chester University on a non-degree basis must apply as transfer students. A minimum cumulative grade point average (GPA) of 2.00 is required for transfer admission. Special consideration is awarded to graduates of Pennsylvania community colleges and to students transferring from other universities in the Pennsylvania State System of Higher Education. Specific information may be obtained from the Office of Admissions. Applicants whose secondary school credentials would not warrant admissions consideration as a first-year student have an alternate pathway to apply as a transfer student. This requires the successful completion of at least 24 semester hours of transfer credit prior to applying as a transfer student.

Degrees Conferred

Degrees Conferred in 2024-2025

Awards completed in summer 2024, fall 2024, winter 2024/25, and spring 2025 are included. Sweeps are included in the counts. Awards for first, second, third etc. majors at an award level are included in the counts. These counts do not represent IPEDS award completions as IPEDS award completions include only first and second major awards at an award level. IPEDS award completions do not include degree sweeps.
