passwords

Brought to you by
The WCU Info Sec Team

NEVER TELL ANYONE YOUR PASSWORD

KEEP IT UNIQUE

Don't reuse your password with other accounts

WHAT DO THE NUMBERS TELL US?

PASSWORD STATISTICS

24 BILLION

A REAL THREAT

In 2022, over 24 billion passwords were exposed by hackers

A REAL THREAT

More than 80% of confirmed breaches are related to stolen, weak, or reused passwords

80%

69%

AN EASY TARGET

69% of the time, Gen Z uses a variation of a single password

AN EASY TARGET

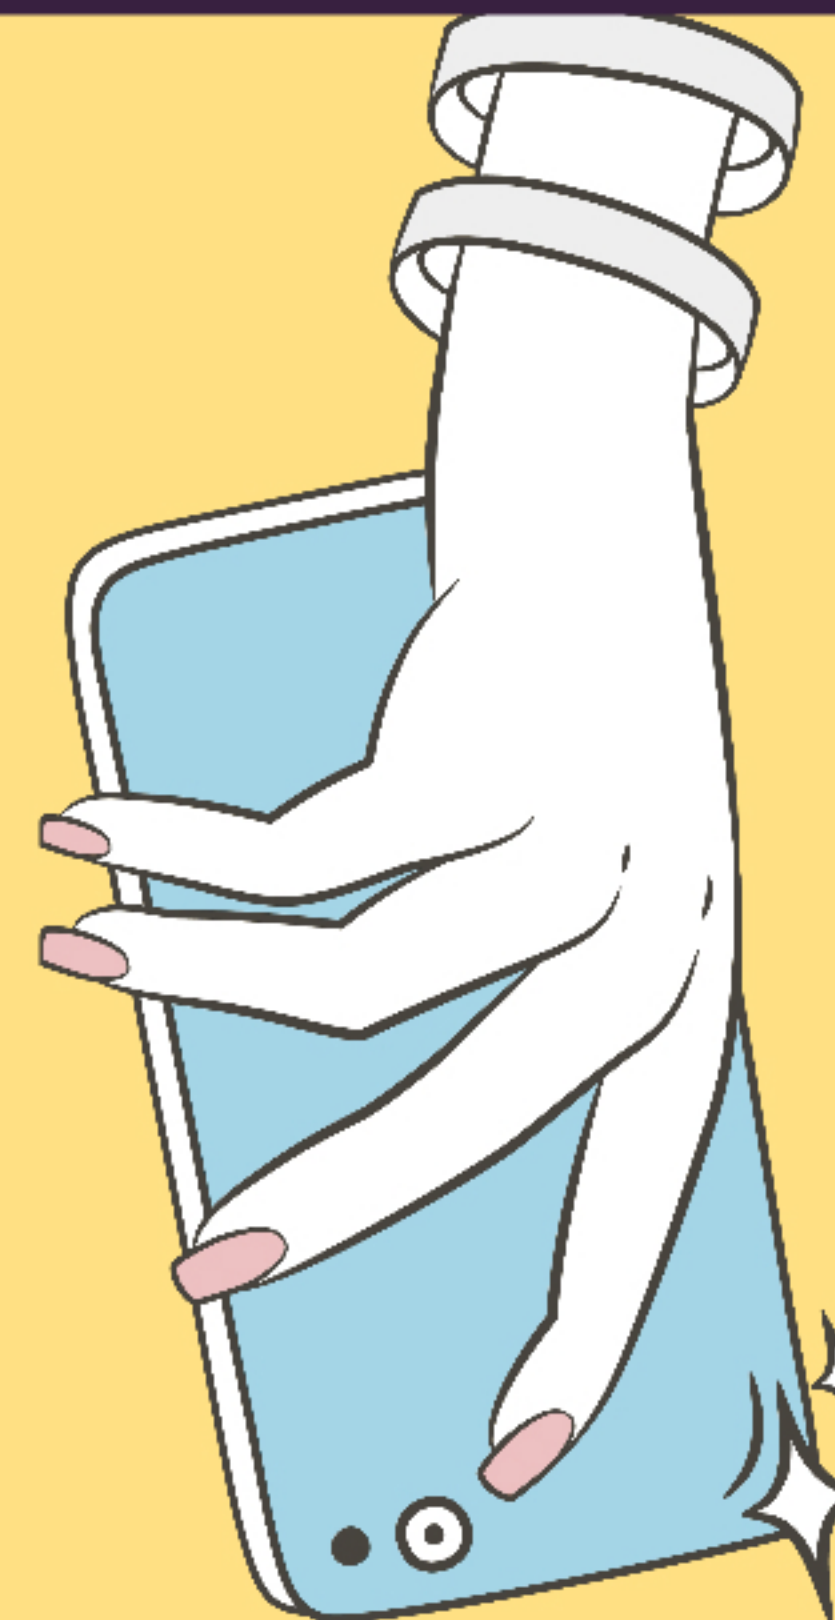

Nearly 40% of people admit sharing their personal passwords with others.

40%

POOR PASSWORD SECURITY IS COMMON, AND HACKERS KNOW THIS.

Never read your passcode to someone on the phone

SET UP DUO

Use Multi-Factor Authentication

Only use SMS when you don't have internet or a smart phone

Duo Mobile Push is much more secure

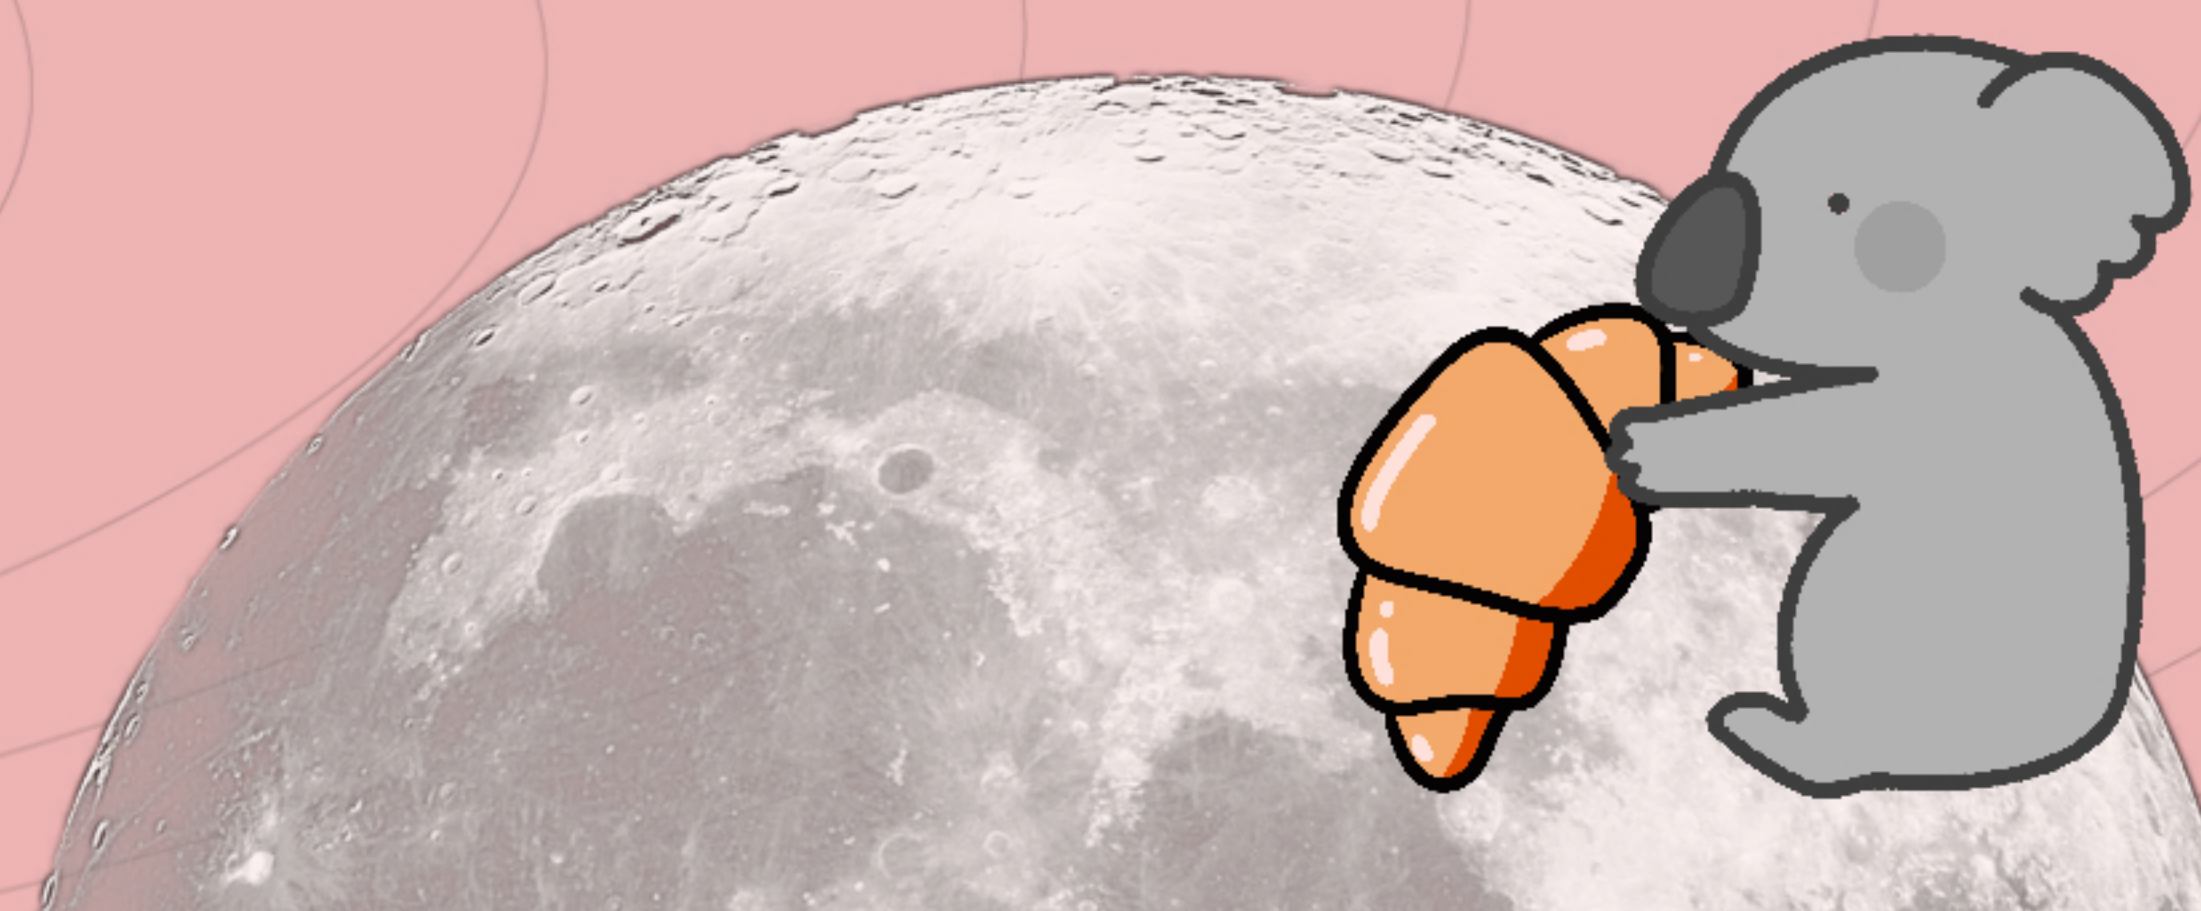

USE BOTH LOWER AND UPPER CASE LETTERS AND SPECIAL CHARACTERS

USE PHRASES

HARDER TO GUESS. EASIER TO REMEMBER

THE #KOALA WALKS THE MOON W/ CROISSANT!

ALWAYS LOGOUT OR LOCK YOUR DEVICE

Close all browser windows after logout
