Gold Majors**

2024-2025 Mathematics Curriculum Flowchart Gold Majors

Early Grades Preparation & Middle Grades Preparation

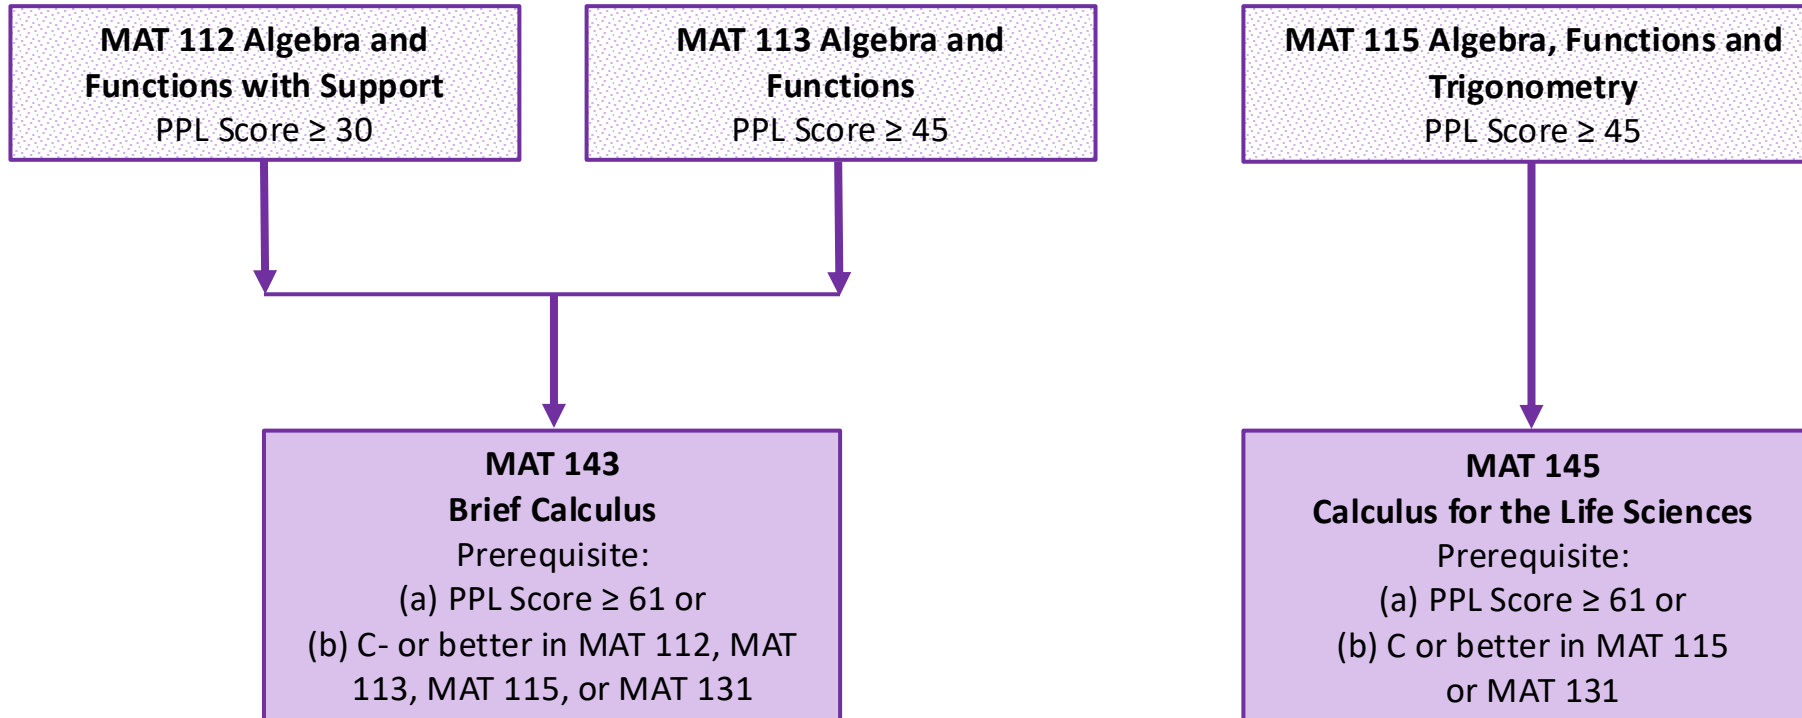

Revised: 5/21/2024

2024-2025 Mathematics Curriculum Flowchart Purple Majors

Business & Life Science Majors

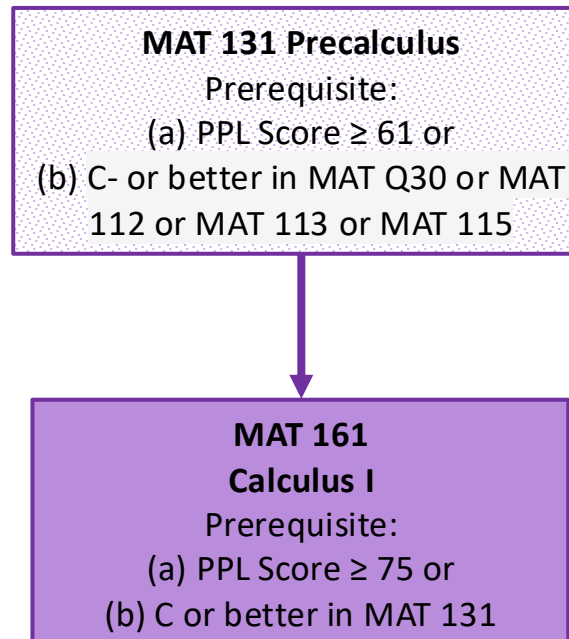

Note: Entry point determined by PPL score. Students who score below 30 on the PPL must take MAT Q30.
MAT Q30 credits do NOT count towards the 120 credits required for graduation

2024-2025 Mathematics Curriculum Flow Chart Purple Majors

Majors That Require MAT 161, Calculus I

Note: Entry point determined by PPL score. Students who score below 30 must take MAT Q30.
MAT Q30 credits do NOT count towards the 120 credits required for graduation

MAT Placement Summary & Recommendations**

- RamPortal will have the 1-100 score reported, not the old 1-5 score. Please refer to the table for equivalencies.

Placement Score	Class
1-29 PPL/MPE 1	MAT 100, Q30, 103, 104, 121
30-44 PPL/MPE 2	MAT 112, 101
45-60 PPL/MPE 3	MAT 113, 125, 115, 151
61-74 PPL/MPE 4	MAT 131, 143, 145
75+ PPL/MPE 5	MAT 161

- Students are encouraged to review and retake the PPL exam if they don't have the score needed for the highest 100-level math course on their degree plan. This is particularly important for students placed into MAT Q30.
- MAT 121 is **not** a prerequisite for algebra. If students in the 1-29 PPL range are scheduled into MAT 121 their first semester and they ultimately need an algebra or calculus course, they will start in MAT Q30 the following semester unless they improve their score. Improving their score one placement level so they can enroll in MAT 112 increases their likelihood of success.
- Answers to placement questions can be found on the [math placement website](#).
